

# COMPACT

YOUR SATISFACTION IS OUR OBJECTIVE

## BERT

YOUR CONNECTIVITY CONSULTANT

Bert represents the connectivity consultants at Murrelektronik. He has all the latest experience from many different industries and knows the market. He also knows what the contributing departments need during the machine building process.

Bert creates the best installation concept for each machine. He will choose the most suitable connectivity technology from more than 42,000 products that have international approvals, have been pre-engineered and work perfectly together. And the best part is: Bert's advice is completely free!
